TESTIMONIALS

"Once again you provided me with the most suitable staff. R3vamp listened, questioned, advised, and then sourced three outstanding IT engineers. You gave me live market updates and advice. Before providing a comprehensive short and long list, I knew exactly how many candidates have been screened for the role and most importantly I knew how our brand is being represented in the market. I will not use another agency".

Sarah, Head of HR @ Telecoms Company.

"I have been dealing with Nick for nearly 10 years and have found him to be polite, honest and exceptionally helpful. Always offering the most professional advice. He has placed 12 of our employees during this time and each time I have received the most exceptional service. R3vamp not only specialises in their sector, but they are also specialists in recruitment."

Steve, Founder/Managing Director @ Technology Company.

"I have had the pleasure of working with Nick and Peter on four recruitment campaigns to date. I have found R3VAMP to be; Responsive, Professional, Creative in the way they work, Customer Driven and Delivered a strong field of candidates taking account the culture of our company. They make life simple and straightforward for the hiring manager and we are delighted with the new people who we have recruited. I would definitely recommend them and look forward working with them again in the future."

Carolyn, Head of HR @ Manufacturing Company.
